Academic program and course description guide

Accounting Technologies Department

2024

the introduction

The educational program is considered a coordinated and organized package of academic courses that includes procedures and experiences organized in the form of academic vocabulary, the main purpose of which is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and .programs such as the external examiner program

The description of the academic program provides a brief summary of the main features of the program and its courses, indicating the skills that students are working to acquire based on the objectives of the academic program. The importance of this description is evident because it represents the cornerstone of obtaining program accreditation, and the teaching staff participates in writing it under the supervision of the scientific .committees in the scientific departments

This guide, in its second edition, includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the latest developments in the educational ,system in Iraq, which included a description of the academic program in its traditional form (annual, quarterly) in addition to adopting the description of the academic program circulated according to the book of the Department of Studies, T.M.3 /3. 2906 on 5/3/2023 regarding programs that adopt the Bologna Process .as a basis for their work

In this area, we can only emphasize the importance of writing descriptions of academic programs and .courses to ensure the smooth conduct of the educational process

Concepts and terminology

Description of the academic program : The description of the academic program provides a concise summary of its vision, mission, and goals, including an accurate description of the targeted learning .outcomes according to specific learning strategies

Course description : Provides a necessary summary of the most important characteristics of the course and the learning outcomes that the student is expected to achieve, demonstrating whether he has made .the most of the available learning opportunities. It is derived from the program description

Program Vision: An ambitious picture for the future of the academic program to be a developed, inspiring .motivating, realistic and applicable program

explains the objectives and activities necessary to achieve them, and also **Program message:** It briefly .identifies the program's development paths and directions

Program objectives: These are statements that describe what the academic program intends to achieve .within a specific period of time and are measurable and observable

Curriculum structure: All courses/study subjects included in the academic program according to the ,approved learning system (semester, annual, Bologna track), whether it is a requirement (ministry .university, college, or scientific department), along with the number of study units

that the student has acquired after **Learning outcomes:** A consistent set of knowledge, skills, and values the successful completion of the academic program. The learning outcomes for each course must be .determined in a way that achieves the program objectives

and learning strategies : They are the strategies used by a faculty member to develop student teaching and they are plans that are followed to reach learning goals. That is, it describes all , and learning classroom activities and extracurricular to achieve the learning outcomes of the programme

1. See the program

It is to provide and prepare graduates with high scientific competence in the fields of Accounting techniques

2. Program message

Graduating technically, technically and scientifically qualified cadres in the field of accounting .

3. Program Goals

Ge Preparing technical staff capable of:

- 1- Implementing tasks related to the accounting specialty.
- 2- Carrying out the accounting cycle.
- 3- Carrying out audit oversight work to serve the administrative levels in all public and private economic sectors.
- 4- Carrying out review and audit work.
- 5- Recording daily, monthly and annual records.
- 6- Analyzing the financial statements.
- 7- Carrying out accounting disclosure requirements and preparing financial reports.
- 8- Preparing cash flow statements, balance sheets and budgets.

4. Program accreditation

Does the program have program accreditation? from any side? no

5. Other external influences

The official sponsor of the program for forensic techniques is the Najaf Technical Institute and the Al-Furat Al-Awsat Technical University

6. Program structure

Cursing academic hours

Details: number and percentage

1 The total number of academic hours for the two years is (57) hours per week: 1710

2 The total number of academic units for the two years is 114

3 The percentage of theoretical hours for the two years is 36.84

4 The percentage of practical hours for two years is 63.16

5 The percentage of specialized hours for the two years is 68.42

6 Percentage of assistant hours for the two years is 28.07

7 The percentage of general hours for the two years is 3.51

8 Summer training 270 hours

9 total academic hours plus summer training 1980 hours

8. Expected learning outcomes of the programme

Knowledge

-- The student will gain a deep understanding of the concepts and theories related to accounting techniques

- 1- The student will learn the classifications of the intellectual framework of accounting.
- 2- That the student learns the principles of accounting
- 3- That the student learns the assumptions of accounting
- 4- That the student learns accounting levels
- 5- For students to learn the classifications of accounting entries
- 6- The student will learn accounting classifications
- 7- For the student to become familiar with the concepts of the accounting cycle
- 8- The student will be familiar with the concepts of government accounting
- 9-The student will be familiar with the concepts of managerial accounting
- 10-The student should be familiar with tax accounting
- 11-The student should be familiar with cost accounting

Skills

- 1- - That the student will be able to acquire the skills related to registering commercial transactions.

- 2- That the student will be able to acquire skills for analyzing business transactions.
- 3- That the student is able to acquire the skills related to recording accounting entries.
- 4- That the student can acquire skills related to analyzing financial statements
- 5- That the student will be able to acquire skills related to modern auditing methods.
- 6- That the student will be able to acquire skills related to modern internal control and auditing methods.
- 7- That the student will be able to acquire skills related to the modern accounting course.
- 8- That the student will be able to acquire skills related to accounting terminology and apply them in the English language.

- 1 - Explaining the conceptual framework of accounting in general and all its classifications and types.
- 2- Knowledge of applied concepts for dealing with elements of financial statements such as revenues, expenses, assets, liabilities and ownership rights.
- 3- Knowledge of scientific foundations, rules, assumptions, restrictions and accounting procedures.
- 4- Full knowledge of the elements of financial statements.
- 5- Knowing the result of the activity for each sector.
- 6- Knowing the accounting problems associated with preparing financial statements and how to address them

Value

Graduates acquire the skills and knowledge necessary to work in the field of accounting. They can apply for jobs such as:

- 1- Accountants
- 2- Financial statement analysts
- 3- Preparing budgets
- 4- Preparing budgets
- 5- List reviewers
- 6- Write reports
- 7- Write statements.

9. Teaching and learning strategies

- 1- Active learning: This approach encourages students to actively participate in the learning process through group discussions, problem solving, and independent analysis of practical cases
- 2- Interactive lessons: Interactive lessons such as group discussions, collaborative activities, and practical exercises can be used to encourage active student participation.
- 3- Effective use of technology: Technology can be used to enhance learning in the field of forensics. Software and tools for digital evidence analysis, forensic databases, and specialized DNA analysis systems can be used to enhance students' understanding of the techniques used in the field

- 4- a For Presentations and Visuals: Presentations and visual materials such as photos and videos can be used to illustrate basic concepts and methods of collecting forensic evidence
- 5- a For field visits and guest lectures: Visits to local forensic centers or forensic laboratories can be organized to familiarize students with the practical environment and techniques used .in the field of forensics
- 6- Projects and Research: Learning can be enhanced by giving students projects or research .related to the field of forensics
- 7- assessment : Evaluate students' progress on an ongoing basis by assigning regular tasks .and tests

10. Evaluation methods

- 1- Written tests: Students may be given written tests to measure their knowledge of theoretical concepts and techniques used in forensic analysis.
- 2- Students' performance can be evaluated by carrying out practical exercises : assessment .that simulate the process of collecting and analyzing forensic evidence
- 3- Project Evaluation: Students can be evaluated by giving them applied forensic analysis .projects
- 4- Assessment : Individual interviews can be used to assess students' skills and understanding of concepts and techniques in forensic analysis.
- 5- Joint Assessment: Participation assessment and group projects can be used to measure .students' abilities to work in teams and interact with classmates
- 6- 'Continuous observation and evaluation: Teachers can monitor and evaluate students .performance during practical classes, laboratories, and practical exercises

11. education institution

Faculty members

Professional development
Orienting new faculty members
Briefly describes the process used to orient new, visiting, full-time, and part-time faculty at the .institution and department levels
Professional development for faculty members
Briefly describe the academic and professional development plan and arrangements for faculty members .such as teaching and learning strategies, assessment of learning outcomes, professional development, etc <ol style="list-style-type: none"> 1. Introduction to the Department: A comprehensive introduction to the Forensic Technologies Department is provided, by clarifying the department’s objectives and available areas of specialization. The department also explains the academic programs offered and courses available. 2. ,Clarification of Academic Requirements: Academic requirements are explained to new, visiting full-time and part-time faculty. This includes the academic requirements needed to teach in the field of forensic techniques, and the academic qualifications required to conduct research and .publish results 3. Familiarize yourself with the curriculum and resources: An overview of the curriculum and available resources is provided in the Forensic Techniques section. Basic books, important references, electronic resources, and laboratory instruments used in teaching and research are .illustrated 4. Academic and Research Guidance: Faculty members are mentored at the institution and department levels regarding research and dissemination of results. This includes guiding them in identifying possible research areas, developing research plans, and providing assistance in .preparing research proposals and projects 5. Communication and Collaboration: Faculty members are encouraged to communicate and cooperate with their colleagues in the department and at the university level . By organizing meetings, seminars and workshops to exchange knowledge and experiences and enhance .cooperation in the field of forensic techniques 6. Professional Development: Professional development opportunities are provided to faculty ,members, whether through internal or external training, and attendance at conferences seminars, and workshops related to the field of forensic techniques. It also encourages . participation in research activities

12. Acceptance standard
)(Developing regulations related to admission to the college or institute, whether central admission or others mentioned)
– Students accepted within the central admission channel for students of biological, applied and literary courses and within the minimum admission threshold.

Registration requirements: High school certificate (biological, applied, and literary) and high school certificate (vocational).

13. The most important sources of information about the program

.Remember briefly

- 1- The university or institute website : Visit the university or institute website To view the ,Forensic Techniques program Through it, you can obtain detailed information about courses admission requirements, costs, duration, important dates, practical experience, academic . members, and other important information
- 2- . Contacting Faculty : Contact faculty in the Forensic Technologies Department for information
- 3- Current Students or Alumni: You may try contacting current students or alumni of the .Forensic Technologies program to get advice and their personal experiences in the program You can look for online forums or groups to connect with these students and ask private .questions
- 4- Exhibitions and Events: Exhibitions and educational events related to the field of forensic techniques are held. Which The department participates in These events are to speak directly with representatives of universities or educational institutions and obtain first-hand information .about available programs

14. Program development plan

- 1- Analysis of the requirements of the Ministry of Health (Forensic Medicine Departments) and the Ministry of Interior's Forensic Evidence Department. A comprehensive analysis of the needs of these institutions is conducted to develop forensic techniques. Taking into account developments and changes in the forensic field, forensic technology and the needs of investigators and .laboratories
- 2- Updating the curriculum: Developing comprehensive curricula that contain the knowledge and ,skills necessary for the field of forensic techniques. Topics such as forensic laboratory science .how to investigate digital crimes, and analyzing biological and chemical evidence may be included
- 3- Technology and Equipment: Providing advanced technology and equipment necessary to train students to use the latest criminal analysis and investigation tools. This equipment can include ,advanced laboratory equipment, digital evidence detectors, imaging and radiography systems .and more

4- Cooperation with relevant authorities: Developing partnerships and cooperation with relevant authorities such as the police, forensic laboratories, judicial authorities and relevant organizations. Joint workshops, research projects and professional exchanges can be organised .

Course Description Form

59. Course Name:	English Language
60. Course Code:	First stage
61. Semester / Year:	2023-2024
62. Description Preparation Date:	2024/ 3 / 26
63. Available Attendance Forms:	In-person
64. Number of Credit Hours (Total) / Number of Units (Total)	14 units /30 hours
65. Course administrator's name (mention all, if more than one name)	Name: Ahmed Abdulhadi Musa Email: ahmed.abdul-hadi.inj@atu.edu.iq
66. Course Objectives	

Course Objectives	6. Providing knowledge of English grammar for students 7. 2. Increase students' ability to understand literary texts 8. 3. Develop students' abilities in listening, speaking, reading and writing skill English language. 9. Encouraging students to use the English language. 10. Enriching students with vocabularies of English language, focusing on its ru and knowing the difference between the tenses and when to use each te correctly
--------------------------	--

67. Teaching and Learning Strategies

Strategy	1. Collaboration among students 2. Sharing information 3. Increase self-confidence 4. Giving opinion and criticism 5 Getting the students to understand what they are reading and listening to 6. Understanding how to form sentences with correct grammar. 7. discussion, giving examples, gather information from online websites, illustrations and direct presentations
-----------------	---

68. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1-4	4	Giving the student an introduction to auxiliary verbs, behavior and social relations, such as greetings, Introduction, and the names of countries, capitals, and cities	Unit One: Hello + Unit Two: Your world	Theoretical lecturing, cooperative learning, discussion	Theoretical exams and oral evaluation
5-8	4	students learn some basic concepts such as individual personal information, job titles - indefinites, definitions, possessive adjectives, and how to formulate questions and negations	Unit Three: All about you + Unit Four: Family and friends	=	=
9-12	4	The student learns to use vocabularies of games, food and drink / the simple present tense / articles - Vocabularies of time / negation and interrogation with the simple present tense	Unit Five: The way I live + Unit Six: Every day	=	=
13-14	2	The student learns to use the pronouns "possession" and to formulate questions -Reviewing previous units	Unit Seven: My favourites + Review of previous units	=	=
15	1				Exam

16 – 17	2	vocabularies of rooms and furniture /prepositions	Unit Eight: Where I live	=	=
18 – 21	4	To learn how to start conversations / time expressions / simple past tense - adverb	Unit Nine: Times past + Unit Ten: We had a great time!	=	=
22 - 25	4	The student learns to show ability, inability, adverbs/request and offer/ preferences	Unit Eleven: I can do that! + Unit Twelve: Please and thank you	=	=
26 - 29	4	The use of the simple present tense with the present continuous tense in affirmative, negation and interrogation / using the present continuous tense to denote the future tense /reviewing the present, past and future tenses	Unit Thirteen: Here and now + Unit Fourteen: It's Time to go!	=	=
30	1				Exam

69. Course Evaluation

First semester: (20 written + 5 activities)
 Second semester: (20 written + 5 activities)
 Final: 50 marks
 Final grade: 100 marks

70. Learning and Teaching Resources

- New Headway Plus (Beginner) , John and Liz Soars, Oxford (Student's Book)
- New Headway Plus (Beginner) , John and Liz Soars, Oxford (Workbook)
- Sources from the Internet
- Textbooks approved by the scientific committee and reports that match the curriculum terms.
- selected topics from "English Grammar in use "
- <https://elt.oup.com/student/headway/cc=global&sellLanguage=en>
